Spring 2018
The book offers a comprehensive analysis of public opinion toward presidential candidate spouses over the course of three decades, drawing on multiple theoretical frameworks including the concept of “new traditionalism” and a plethora of empirical data to explore why some spouses engender greater support than others—and what these reactions reveal about the American public and the gendered nature […]

This book provides a comprehensive summary and analysis of all the nationwide referendums since 1793. Referendums are ubiquitous and they are increasingly becoming vehicles for political change – or sometimes vehicles of conservatism. In 2016, for example, the voters in the United Kingdom caused a major upheaval when they voted for leaving the European Union. [...]

The Rise of Victimhood Culture
Microaggressions, Safe Spaces, and the New Culture Wars

The Rise of Victimhood Culture offers a framework for understanding recent moral conflicts at U.S. universities, which have bled into society at large. These are not the familiar clashes between liberals and conservatives or the religious and the secular: instead, they are clashes between a new moral culture—victimhood culture—and a more traditional culture of dignity. [...]

Top 50 Grammar Mistakes
How to Avoid Them

This book focuses on the most commonly made grammar mistakes by non-native English speakers. This means that you can set yourself a reasonable target. So rather than trying to learn all English grammar, just concentrate on those issues that tend to be used the most frequently and/or tend to create the most misunderstandings. Each chapter contains: Examples of typical mistakes. [...] 2018. XIX, 176 p. (Easy English!) Softcover € 29,99 | £ 16,50 € (D) 32,09 | € (A) 32,99 | *CHF 33.00 ISBN 978-3-319-70983-3

**Cosmopolitan Managers**

Executive Development that Works

Executive education is a billion dollar industry that has the potential to transform individual and organizational performance, but in too many cases the decision whether or not to lavish it upon any given manager comes down to whether the fear that they will leave if you don’t spend money on them is greater than the fear that they will leave if you do. [...]

Quantum Physics, Mini Black Holes, and the Multiverse
Debunking Common Misconceptions in Theoretical Physics “Modern physics is rife with provocative and fascinating ideas, from quantum mechanics to the multiverse. But as interesting as these concepts are, they are also easy to misunderstand. This book, written with deft hands by true experts in the field, helps to illuminate some of the most important and game-changing ideas in physics today.” [...] 2018. The Last Natural Man
Where Have We Been and Where Are We Going?

This book explores cultural evolution and the meaning of the word 'natural'. We are at the crossroads of a major transformation. Why is our current time so important in the history of man? We are at a point where we may be the last generation that is not partially or fully bionic. The last natural man: natural in what way? What is “natural”? [...]

The Day the King Defaulted
Financial Lessons from the Stop of the Exchequer in 1672

This book studies King Charles II’s decision to stop all payments from his royal exchequer, a sordid but little-known event in English history with eerie similarities to the cause of the Great Recession of 2008. As with any modern banking crisis, the financial system in 1672 almost collapsed, day-to-day commerce ground to a halt, houses were lost, and ordinary investors suffered—but there was no b [...]”

In Defense of Processed Food
It's Not Nearly as Bad as You Think

It has become popular to blame the American obesity epidemic and many other health-related problems on processed food. Many of these criticisms are valid for some processed-food items, but many statements are overgeneralizations that unfairly target a wide range products that contribute to our health and well-being.

R. L. Shewfelt
In Defense of Processed Food
It’s Not Nearly as Bad as You Think

It has become popular to blame the American obesity epidemic and many other health-related problems on processed food. Many of these criticisms are valid for some processed-food items, but many statements are overgeneralizations that unfairly target a wide range products that contribute to our health and well-being. [...] 2017. XVIII, 273 p. 16 illus., 14 illus. in color. Softcover

Although many things can go wrong in the brain, this book also shows that our brain is strong. It highlights the key findings that can be seen on magnetic resonance imaging (MRI) and computed tomography (CT) scans, including those related to normal brain aging and common diseases such as brain infarcts, fractures of the skull as well as fractures and tumors of the vertebral column. [...]
A. Karnani

Fighting Poverty Together
Rethinking Strategies for Business, Governments, and Civil Society to Reduce Poverty

In this hard-hitting polemical Karnani demonstrates what is wrong with today’s approaches to reducing poverty. He proposes an eclectic approach to poverty reduction that emphasizes the need for business, government and civil society to partner together to create employment opportunities for the poor.

Food Bites
The Science of the Foods We Eat

Food Bites is an easy-to-read, often humorous book on the scientific basis of the foods we eat, and answers those pesky, niggling questions such as: Is the quality of beer really affected by the type of water used? and Processed foods: good or bad? (...)

P. Estupinya

S=EX²
The Science of Sex

You have in your hands the most rigorous, complete and readable book ever written about the fascinating science of human sexuality. This book goes beyond the well-worn sexual education advice and the usual evolutionist psychology. After The Brain Snatcher, Pere Estupinya comes back with the first popular science book on sex aimed at a wide audience. (...)
