**Urban Planning in the Global South**

Conflicting Rationalities in Contested Urban Space

This book addresses the ongoing crisis of informality in rapidly growing cities of the global South. The authors offer a Southern perspective on planning theory, explaining how the concept of conflicting rationalities complements and expands upon a theoretical tradition which still primarily speaks to global ‘Northern’ audiences. [...]

NATO, Civilisation and Individuals
The Unconscious Dimension of International Security
This book critically engages with NATO’s two main referent objects of security: civilisation and individuals. By rethinking the seemingly natural assumption of these two referent objects, it suggests the epistemological importance of an unconscious dimension to understanding formation and behaviour change in international security. ...

Democratisation and Institutional Reform in Albania

Albania’s democratic transition – one of the longest and most arduous of post-communist Europe – has failed to produce consolidated institutions. Therefore, this book undertakes the first comprehensive review of Albania’s military and judicial reform – from 1992 to 2009 – to ascertain why military reform produced substantial institutionalisation and judicial reform did not.

The Culture of French Revolutionary Diplomacy
In the Face of Europe

This book examines the culture of the French diplomatic corps from 1789 to 1799. It analyzes how the French revolutionaries attempted, albeit unsuccessfully, to transform the diplomatic culture of the old regime, notably in etiquette, language and dress and how the ideology and dynamic of the Revolution affected certain aspects of international affairs.

Democratisation and Institutional Reform in Albania

Albania’s democratic transition – one of the longest and most arduous of post-communist Europe – has failed to produce consolidated institutions. Therefore, this book undertakes the first comprehensive review of Albania’s military and judicial reform – from 1992 to 2009 – to ascertain why military reform produced substantial institutionalisation and judicial reform did not. Pope Francis as a Global Actor
Where Politics and Theology Meet

Pope Francis confuses many observers because his papacy does not fit neatly into any pre-established classificatory schemes. To gain a deeper appreciation of Francis’s complicated papacy, this volume proposes that an interdisciplinary approach, fusing concepts derived from moral theology and the social sciences, may properly situate Pope Francis as a global political entrepreneur.

Press Freedom as an International Human Right

This book examines why press freedom has not become part of the established international human rights debate, despite its centrality to democratic theory. It argues that an unrestricted press is not just an important economic actor, but also an influential power in the political process, a status that interferes with government interests of sustaining their own power and influence.

Framing the EU Global Strategy
A Stronger Europe in a Fragile World
This book tells the story of the EU Global Strategy (EUGS). By reflecting back on the 2003 European Security Strategy, this book uncovers the background, the process, the content and the follow-up of the EUGS thirteen years later. By framing the EUGS in this broader context, this book is essential for anyone wishing to understand European foreign policy.

The Oligarch
Rewriting Machiavelli’s The Prince for Our Time
This book uses the structure of Machiavelli’s The Prince to show how governance has changed over the last 500 years. If Machiavelli focuses on power concentrated in the hands of the republic or principalities, The Oligarch looks at how states and companies today function as oligarchies. [...]

Religion and the American Presidency
This book chronologically analyzes thirteen key US Presidents, from Washington to Trump, to highlight how religion has informed or influenced their politics and policies. For years, leading scholars have largely neglected religion in presidential studies. Yet, religion has played a significant role in a number of critical presidencies in US history. [...]

Referendums Around the World
With a Foreword by Sir David Butler
This book provides a comprehensive summary and analysis of all the nationwide referendums since 1793. Referendums are ubiquitous and they are increasingly becoming vehicles for political change – or sometimes vehicles of conservatism. In 2016, for example, the voters in the United Kingdom caused a major upheaval when they voted for leaving the European Union. [...]
