**Financial Crises and Earnings Management Behavior**

Arguments and Evidence Against Causality

This book approaches the question of the relation between financial crises and earnings management from two philosophical perspectives: positivism and critical realism. The results obtained using the positivist approach indicate that financial crises tend to have no consistent effect on earnings quality since managers' earnings behavior does not differ from the pre-crisis to the crisis period. Leadership without Ego
How to stop managing and start leading

If you take a chain, pile it up and then push it, what direction will it go? Nowhere you can predict and not very far. If you take it by the end and pull it, which way will it go? It will follow you. Leadership is not about what sets you apart from those you lead—it’s about what binds you together. It is not about controlling others—it’s about trusting others. [...]

Bringing the Human Being Back to Work
The 10 Performance and Development Conversations Leaders Must Have
For the past 100 years, we’ve progressively dehumanized our places of work. We’ve learned to systemize, homogenize, and mechanize – all in the quest for greater efficiency and cost-saving. We’ve forgotten that the human being is the centre of work. This book highlights the ten essential performance and development conversations leaders must have to restore human spirit at work. ...
