Professional and Applied Computing

Dear reader,

Springer Nature is proud to offer you a rich selection of new book publications and bestselling backlist titles in Professional and Applied Computing. It highlights the new titles most likely to interest specialists working in the professional field or in academia. You will find the international authorship and high quality contributions you have come to expect from the Springer Nature brand in every title. Please show this catalog to your buyers and acquisition staff. It is a premier and most authoritative source of new print book titles from Springer Nature. We offer you a wide range of publication types – from contributed volumes focusing on current trends, to handbooks for in-depth research, to textbooks for graduate students. If you are looking for something very specific, go to our online catalog at springer.com and search among the 286,563 books in print by keyword. The Advanced Search makes it easy to define any scientific subject you have. You can even download a catalog just like this one with your own personal selection – completely free of charge!

We hope you will enjoy browsing through our new titles and make your selection today!

With best wishes,
