New Publications
Professional and Applied Computing

Dear reader, Springer Nature is proud to offer you a rich selection of new book publications and bestselling backlist titles in Professional and Applied Computing. It highlights the new titles most likely to interest specialists working in the professional field or in academia. You will find the international authorship and high quality contributions you have come to expect from the Springer Nature brand in every title. Please show this catalog to your buyers and acquisition staff. It is a premier and most authoritative source of new print book titles from Springer Nature.

We hope you will enjoy browsing through our new titles and make your selection today!

A. Deschamps-Sonsino
Smarter Homes
How Technology Will Change Your Home Life
Examine the history of smart homes, how technology shapes our lives, and ways you can think about the home when developing new products. This book presents the opportunities in the homespace that will come from understanding the history and multiple players that have contributed to the development of the home in general. [...] 
2018 XVIII, 168 p. 32 illus. Softcover
$ 32.99

S. M. Farooqui
Enterprise DevOps Framework
Transforming IT Operations
Transform your IT organization from one weighed down by set practices to one with a DevOps culture and a cloud-first strategy that is optimized by automation and other lean practices. In this engaging read, you will discover the opportunities, challenges, lessons, and rewards that CA Technologies encountered when making their agile and DevOps transformation. [...]

A. Haughian
Design, Launch, and Scale IoT Services
A Practical Business Approach
The Internet of Things is causing major industry disruption, so companies need to plan and manage their “IoT journey” to maximize all business opportunities. In this book companies can learn how to successfully create, launch and manage Internet of Things services. [...] 
2018 XVIII, 274 p. 51 illus. Softcover
$ 29.99

A. Kurniawan
Practical Contiki-NG
Programming for Wireless Sensor Networks
Explore how to develop and implement wireless server networks (WSN) using Contiki-NG, branded as the operating system for the IoT. The book explains Contiki-NG’s advantages in sensing, communication, and energy optimization and enables you to begin solving problems in automation with WSN. Practical Contiki-NG is a guide to getting started with Contiki-NG programming featuring projects tha [...]

A. Axelrod
Complete Guide to Test Automation
Techniques, Practices, and Patterns for Building and Maintaining Effective Software Projects
Rely on this robust and thorough guide to build and maintain successful test automation. As the software industry shifts from traditional waterfall paradigms into more agile ones, test automation becomes a highly important tool that allows your development teams to deliver software at an ever-increasing pace without compromising quality. [...]

Bad Programming Practices 101

Become a Better Coder by Learning How (Not) to Program

This book takes a humorous slant on the programming practice manual by reversing the usual approach: under the pretense of teaching you how to become the world’s worst programmer who generally causes chaos, the book teaches you how to avoid the kind of bad habits that introduce bugs or cause code contributions to be rejected. Why be a code monkey when you can be a chaos monkey? [...] 2018 XXII, 221 p. 15 illus. in color. Softcover

C. Bell
Introducing the MySQL 8 Document Store
Learn the new Document Store feature of MySQL 8 and build applications around a mix of the best features from SQL and NoSQL database paradigms. Don’t allow yourself to be forced into one paradigm or the other, but combine both approaches by using the Document Store. [...] 2018 XXIII, 532 p. 40 illus. Softcover
$ 44.99

P. A. Carter
SQL Server Advanced Data Types
JSON, XML, and Beyond
Deliver advanced functionality faster and cheaper by exploiting SQL Server’s ever-growing amount of built-in support for modern data formats. Learn about the growing support within SQL Server for operations and data transformations that have previously required third-party software and all the associated licensing and development costs. [...] 2018 XV, 392 p. 103 illus. Softcover
$ 37.99

P. Finnigan
Oracle Incident Response and Forensics
Preparing for and Responding to Data Breaches
Take the right steps when a breach of your Oracle Database environment becomes known or suspected. You will learn techniques for discerning how an attacker got in, what data they saw, and what else they might have done. This book helps you understand forensics in relation to Oracle Database, and the tools and techniques that should be used to investigate a database breach. [...] 2018 XVI, 199 p. 17 illus. in color. M. Mahadevan
Data Professionals at Work
Enjoy reading interviews with more than two dozen data professionals to see a picture of what it’s like to work in the industry managing and analyzing data, helping you to know what it takes to move from your current expertise into one of the fastest growing areas of technology today. Data is the hottest word of the century, and data professionals are in high demand. [...] 2018 XIV, 114 p. 29 illus. Softcover $ 32.99 ISBN ISBN 978-1-4842-3966-7

A. Leonard
Data Integration Life Cycle Management with SSIS
A Short Introduction by Example
Build a custom BimlExpress framework that generates dozens of SQL Server Integration Services (SSIS) packages in minutes. Use this framework to execute related SSIS packages in a single command. You will learn to configure SSIS catalog projects, manage catalog deployments, and monitor SSIS catalog execution and history. [...] 2018 XIII, 185 p. 179 illus., 173 illus. in color. Softcover $ 24.99 ISBN ISBN 978-1-4842-3275-0

D. Korotkevitch
Expert SQL Server Transactions and Locking
Concurrency Internals for SQL Server Practitioners
Master SQL Server’s Concurrency Model so you can implement high-throughput systems that deliver transactional consistency to your application customers. This book explains how to troubleshoot and address blocking problems and deadlocks, and write code and design database schemas to minimize concurrency issues in the systems you develop. [...] 2018 XIX, 318 p. 144 illus. Softcover $ 32.99 ISBN ISBN 978-1-4842-3956-8
E. Stull
UX Fundamentals for Non-UX Professionals
User Experience Principles for Managers, Writers, Designers, and Developers

B. Singhal, G. Dhameja, P. S. Panda
Beginning Blockchain
A Beginner’s Guide to Building Blockchain Solutions
Understand the nuts and bolts of Blockchain, its different flavors with simple use cases, and cryptographic fundamentals. You will also learn some design considerations that can help you build custom solutions. Beginning Blockchain is a beginner’s guide to understanding the core concepts of Blockchain from a technical perspective. [...] 2018 XV, 386 p. 117 illus. Softcover $ 34.99 ISBN ISBN 978-1-4842-3443-3

B. Shaik, A. Vallarapu
Beginning PostgreSQL on the Cloud
Simplifying Database as a Service on Cloud Platforms
Get started with PostgreSQL on the cloud and discover the advantages, disadvantages, and limitations of the cloud services from Amazon, Rackspace, Google, and Azure. Once you have chosen your cloud service, you will focus on securing it and developing a back-up strategy for your PostgreSQL instance as part of your long-term plan. [...] 2018 XX, 381 p. 288 illus. Softcover $ 44.99 ISBN ISBN 978-1-4842-3446-4

M. Malcher
DBA Transformations
Building Your Career in the Transition to On-Demand Cloud Computing and Extreme Automation
Adapt your career as a database administrator to the changing industry. Learn where the growth and demand for DBA talent are occurring and how to enhance your skill set. Creating databases, providing access, and controlling data are no longer the focus. What matters now is managing and monitoring the systems that provide access to users of the data. [...] 2018 XII, 125 p. 22 illus., 13 illus. in color. Softcover $ 24.99 ISBN ISBN 978-1-4842-3242-2

$ 29.99
Python Descriptors
Understanding and Using the Descriptor Protocol
Create descriptors and see ideas and examples of how to use descriptors effectively. In this short book, you’ll explore descriptors in general, with a deep explanation of what descriptors are, how they work, and how they’re used. [...] 2nd Edition 2018 XIV, 97 p. 4 illus. Softcover $32.99 ISBN 978-1-4842-3726-7

Advanced Data Analytics Using Python
With Machine Learning, Deep Learning and NLP Examples
Gain a broad foundation of advanced data analytics concepts and discover the recent revolution in databases such as Neo4j, Elasticsearch, and MongoDB. This book discusses how to implement ETL techniques including topical crawling, which is applied in domains such as high-frequency algorithmic trading and goal-oriented dialog systems. [...] 2018 XV, 186 p. 18 illus. Softcover $39.99 ISBN 978-1-4842-3449-5

Good Habits for Great Coding
Improving Programming Skills with Examples in Python
Improve your coding skills and learn how to write readable code. Rather than teach basic programming, this book presumes that readers understand the fundamentals, and offers time-honed best practices for style, design, documenting, testing, refactoring, and more. [...] 2018 XXIX, 314 p. 7 illus. Softcover $24.99 ISBN 978-1-4842-3458-7

Python Data Scraping
With Pandas, NumPy, and Matplotlib
Explore the latest Python tools and techniques to help you tackle the world of data acquisition and analysis. You’ll review scientific computing with NumPy, visualization with matplotlib, and machine learning with scikit-learn. This revision is fully updated with new content on social media data analysis, image analysis with OpenCV, and deep learning libraries. [...] 2nd Edition 2018 XIX, 569 p. 648 illus. Softcover $39.99 ISBN 978-1-4842-3912-4

Practical Web Scraping for Data Science
Best Practices and Examples with Python
This book provides a complete and modern guide to web scraping, using Python as the programming language, without glossing over important details or best practices. Written with a data science audience in mind, the book explores both scraping and the larger context of web technologies in which it operates, to ensure full understanding. [...] 2018 XVI, 306 p. 35 illus. Softcover $39.99 ISBN 978-1-4842-3581-2
