Comparing Strategies of (De)Politicisation in Europe

Governance, Resistance and Anti-politics

J. Buller, P. E. Dönmez, A. Standring, M. Wood (Eds)

- Considers depoliticisation from a comparative perspective, particularly focusing on cases from continental European countries
- Investigates how depoliticisation is received by those at which it is aimed, as well as how it is put into practice
- Promotes an interdisciplinary conversation to define depoliticisation as a dynamic and interactive process between government elites and societal groups/movements

This book investigates the extent to which depoliticisation strategies, used to disguise the political character of decision-making, have become the established mode of governance within societies. Increasingly, commentators suggest that [...]

Bodies Over Borders and Borders Over Bodies
B. Camminga

- Makes the case that ‘transgender’, as a discourse and a politics, has materialised in South Africa in particular forms due to a combination of social, political and cultural conditions peculiar to the country
- Provides the first in depth study of the lives of transgender refugees and asylum seekers from the African continent living in South Africa
- Argues that the materialisation of ‘transgender’ in South Africa, in recent years, has lead to the emergence of what can be usefully termed ‘gender refugees’—people who can make claims to refugee status, fleeing their countries of origin based on the persecution of their gender identity

This book tracks the conceptual journeying of the term ‘transgender’ from the Global North—where it originated—and with the physical embodiment journeying [...]

Political Representation in France and Germany
Attitudes and Activities of Citizens and MPs
O. W. Gabriel, E. Kerrouche, S. S. Schüttemeyer (Eds)

- Provides the first comparative study on political representation in France and Germany
- Mixes quantitative and qualitative methods to cover MPs’ attitudes and activities as well as citizens’ perspectives
- Makes an important contribution to the debate on the future of democratic government

Notwithstanding its contemporary critics, political representation remains at the core of democratic politics. Based on a comparative research project that gathered data from observations, surveys, experiments and expert interviews, this book [...]
New Political Economy of Energy in Europe
Power to Project, Power to Adapt
J. M. Godzimirski (Ed)

• Analyses the dramatic changes that the international political economy of energy has undergone in the past decade
• Outlines the impact of increased tension between Russia and the West
• Demonstrates compellingly why it can be said that geopolitics plays a larger role in today's world than it ever has previously
• Provides insight into how the EU can effectively deal with this

This edited collection details and analyses the dramatic changes that the international political economy of energy has undergone in the past decade. This change began with the increasing assertiveness of Russia when the oil price rose above the [...]

The Myth of Mao Zedong and Modern Insurgency
F. Grice

• Highlights how the strategies and tactics used by later insurgent groups diverged substantially from Mao's teachings and made no real effort to truly incorporate his theories into their own conflicts
• Incorporates some of the latest scholarly research about Mao Zedong, including new evaluations of his actions during the Chinese Revolutionary Civil War
• Involves and bases its arguments upon a comprehensive, rigorous, and evidence-based analysis of all of Mao's writings, providing a much more thorough and accurate portrayal of his teachings, the problems within them, and their muted relevance and applicability for future insurgencies

Tackling one of the most prevalent myths about insurgencies, this book examines and rebuts the popular belief that Mao Zedong created a fundamentally new form of warfare that transformed the nature of modern insurgency. [...]

The Vortex of Power
Intellectuals and Politics in Indonesia's Post-Authoritarian Era
A. P. Kusman

- Shows how Indonesia's intellectuals utilize the idea of good governance and democratic institution-building for private interests
- Highlights current forms of governance that validate power structures that continue to obstruct political participation in Indonesia
- Delves into the contribution of local intellectuals in resolving the contradictions between technocratic ideas and governance practices

This book explores the role of intellectuals and governance processes in post-authoritarian Indonesia. Focusing on East Java, the author argues that intellectuals have played an increasingly direct and practical role in the exercise of governance [...]

Human Nature and the Causes of War
J. D. Orme

- Sets forth classical realism as a theory of world politics
- Finds that revisionism (the desire to alter the territorial status quo) accounts for much more warfare than "spirals of insecurity" between status quo powers
- Examines the effects of political regimes (especially authoritarian ones) on foreign policy

What are the causes of war? Wars are generally begun by a revisionist state seeking to take territory. The psychological root of revisionism is the yearning for glory, honor and power. Human nature is the primary cause of war, but political […]

Richard M. Nixon and European Integration
A Reappraisal
J. M. Siracusa, H. T. T. Nguyen

- Makes a significant contribution to the literature on American policy towards European integration and the historiography of the Nixon Presidency
- Demonstrates that the forces pressing for continuity in American policy towards Europe were stronger than Nixon’s ability to challenge that policy
- Makes the case that a strong Europe was/is too important to the united States

This book re-examines the Nixon administration’s attitude and approach to the European integration project. The formulation of US policy towards European integration in the Nixon presidential years (1969-1974) was conditioned by the perceived [...]

Great Power Conduct and Credibility in World Politics
S. Smolnikov

- Sheds light on the phenomenon of great powers’ obsession with retaining images of their primacy and resolve in international affairs
- Draws from social psychology and suggests that credibility-fixed type of behavior is connected to a particular stage of the power cycle
- Contributes to the IR pragmatist tradition of creating predictable values and generates further knowledge about generalized patterns in world politics

This book seeks to answer one main question: what is the core concern of great powers that streamlines their behavior in the contemporary system of international relations? Building on the examples of the United States, China, Russia, France, and […]
