Dear reader,

Browse the Catalogs for Springer Nature’s most promising titles in 2019. You will find the international authorship and high quality contributions you have come to expect from the Springer Nature brand in every title.

Find more catalogs at springer.com/catalogs

If you are looking for something very specific, go to our online catalog at springer.com and search among the 302,062 books in print by keyword. The Advanced Search makes it easy to define any scientific subject you have. You can even download a catalog just like this one with your own personal selection – completely free of charge.

We hope you will enjoy browsing through our new titles and make your selection today!

With best wishes,

Ria Frauenfeld

Cloud Computing Using Oracle Application Express
Develop Internet-Facing Business Applications Accessible Anywhere and Anytime

Get the domain knowledge you need to develop real-world business apps for and in the cloud. You’ll see how Oracle APEX has made the life of web developers much easier and how it helps you create web-based data-centric applications easily and instantly without writing screeds of code. [...] 2nd ed. 2019. XIX, 341 p. 54 illus. Softcover $ 44.99 ISBN 978-1-4842-4242-1

R. Asenjo, J. Reinders, M. Voss

Pro TBB
C++ Parallel Programming with Threading Building Blocks

This open access book is a modern guide for all C++ programmers to learn Intel Threading Building Blocks (TBB). Written by TBB and parallel programming experts, this book reflects their collective decades of experience in developing and teaching parallel programming with TBB, offering their insights in an approachable manner. [...] 2019. IV, 972 p. 577 illus., 451 illus. in color. Softcover $ 44.99 ISBN 978-1-4842-4397-8

B. Brumm

Beginning Oracle SQL for Oracle Database 18c
From Novice to Professional

Start developing with Oracle SQL. This book is a one-stop introduction to everything you need to know about getting started developing an Oracle Database. You’ll learn about foundational concepts, setting up a simple schema, adding data, reading data from the database, and making changes. No experience with databases is required to get started. [...] 2019. XXVI, 431 p. 138 illus. Softcover $ 37.99 ISBN 978-1-4842-4429-6

M. Campbell

Learn RStudio IDE
Quick, Effective, and Productive Data Science

Discover how to use the popular RStudio IDE as a professional tool that includes code refactoring support, debugging, and Git version control integration. This book gives you a tour of RStudio and shows you how it helps you do exploratory data analysis; build data visualizations with ggplot; and create custom R packages and web-based interactive visualizations with Shiny. [...] 2019. IX, 153 p. 88 illus., 6 illus. in color. Softcover $ 27.99 ISBN 978-1-4842-4510-1

J. Dalton

Great Big Agile
An OS for Agile Leaders

Big Agile leaders need an empirical, “high-trust” model that provides guidance for scaling and sustaining agility and capability throughout a modern technology organization. This book presents the Agile Performance Holarchy (APH)—a “how-ability” model that provides agile leaders and teams with an operating system to build, evaluate, and sustain great agile habits and behaviors. [...] 2019. XXI, 335 p. 107 illus. in color. Softcover $ 44.99 ISBN 978-1-4842-4205-6

**Migrating to MariaDB**

Toward an Open Source Database Solution

Mitigate the risks involved in migrating away from a proprietary database platform toward MariaDB’s open source database engine. This book will help you assess the risks and the work involved, and ensure a successful migration. Migrating to MariaDB describes the process and lessons learned during a migration from a proprietary database management engine to the MariaDB open source solution.

Artificial Neural Networks with Java
Tools for Building Neural Network Applications
Use Java to develop neural network applications in this practical book. After learning the rules involved in neural network processing, you will manually process the first neural network example. This covers the internals of front and back propagation, and facilitates the understanding of the main principles of neural network processing. [...]

Practical Django 2 and Channels 2
Building Projects and Applications with Real-Time Capabilities
Learn how to rapidly build your own ecommerce site by applying Django's battle-tested components. This book demonstrates Django's features and conventions to help you develop modern web applications quickly. You'll adopt a “learn by doing” approach and gain a deeper understanding of Django by working through a project in which the real-time component will be critical. […]

O. Lodriguez
Let’s Build a Multiplayer Phaser Game
With TypeScript, Socket.IO, and Phaser
Create a fully working multiplayer game from scratch using TypeScript, Socket.IO, and the community edition of Phaser.js. You will achieve amazing feats in the browser without having to install any software. This book teaches you how to use the Phaser game engine APIs to tap into physics, and how to utilize HUD information and fire lasers. […]
