Pain
A Review Guide
This concise but comprehensive guide covers common procedures in pain management necessary for daily practice, and includes topics on international pain medicine curricula, for example, the American Board of Anesthesiology, World Institute of Pain/Fellow of Interventional Pain Practice, and American Board of Pain Medicine. [...] 2019. XXVI, 1334 p. 102 illus., 80 illus. in color. In 2 volumes, not available separately. Hardcover $149.99 ISBN 978-3-319-99123-8

M. Alam (Ed.)
Evidence-Based Procedural Dermatology

S. Babu, C. A. Schutt, D. I. Bojrab (Eds.)
Diagnosis and Treatment of Vestibular Disorders
This text reviews the current understanding of vestibular anatomy allowing for a framework of reference, and how it’s applied to vestibular testing, diagnosis and management of dizziness. Vestibular testing is an important tool in the evaluation and management of the patient with dizziness. It aids in establishing a diagnosis and determining the side or site of the lesion. [...] 2019. XII, 391 p. 97 illus., 70 illus. in color. Hardcover $149.99 ISBN 978-3-319-97857-4

P. L. M. Albernaz, F. Zuma e Maia, S. Carmona, R. V. R. Cal, G. Zalazar
The New Neurotology
A Comprehensive Clinical Guide
Neurotology is a branch of medicine that focuses on diagnosing and treating neurological conditions of the inner ear and related structures. There have been many recent advances in neurotology that have been published in general medicine, otolaryngology and neurology journals. [...] 2019. XIX, 228 p. 76 illus., 50 illus. in color. Presenting Your Case
A Concise Guide for Medical Students
C. D. Packer
Medical students often struggle when presenting new patients to the attending physicians on the ward. Case presentation is either poorly taught or not taught at all in the first two years of medical school. As a result, students are thrust into the spotlight with only sketchy ideas about how to present, prioritize, edit, and focus their case presentations. [...] 2019. **PET/CT in Brain Disorders**

This well-illustrated pocket book offers up-to-date guidance on the clinical and research applications of PET/CT in the most common neurological and neuro-oncological disorders. The opening chapters cover the pros and cons of widely used radiological imaging techniques, scanners, and radiopharmaceuticals, with emphasis on the state of the art hybrid modalities, primarily PET/CT but also PET/MRI. [...] 2019. XVII, 178 p. 82 illus., 72 illus. in color. (Clinicians’ Guides to Radionuclide Hybrid Imaging) Softcover

Errors in Emergency and Trauma Radiology

This book describes and illustrates the gamut of errors that may arise during the performance and interpretation of imaging of both nontraumatic and traumatic emergencies, using a head-to-toe approach. The coverage encompasses mistakes related to suboptimal imaging protocols, failure to review a portion of the examination, satisfaction of search error, and misinterpretation of imaging findings. [...]

Geriatric Emergencies

A Case-Based Approach to Improving Acute Care

Care for older adults in Emergency Departments (EDs) has historically been focused on acute medical conditions with little emphasis on geriatric-specific issues. In 2010, emergency departments (EDs) throughout the nation saw almost 130 million patients, 15% of whom were 65 or older. The number of older adults who visit an ED has doubled in the last decade and continues to grow rapidly. [...] 2019. X, 214 p. 15 illus., 6 illus. in color. Softcover

Although transgender persons have been present in various societies throughout human history, it is only during the last several years that they have become widely acknowledged in our society and their right to quality medical care has been established. 

Viral Hepatitis: Chronic Hepatitis C

This book presents up-to-date, practically oriented information on major topics in chronic hepatitis C. The coverage encompasses epidemiology; diagnosis, including molecular methods; treatment and challenges; and the management of co-infections. Readers will find guidance on pretherapeutic evaluation with respect to disease severity and extrahepatic manifestations. 

Handbook of Nutrition, Diet, and Epigenetics

This multivolume reference work addresses the fact that the well being of humankind is predicated not only on individuals receiving adequate nutrition but also on their genetic makeup.

Illustrated Handbook of Rheumatic and Musculo-Skeletal Diseases

This book comprehensively reviews clinical aspects and features of rheumatic and musculo-skeletal diseases in an integrated and easy to read format. It enables the reader to become confident in identifying common and unusual disease symptoms and be able to apply a variety of diagnostic modalities and evaluate potential treatment options.

Gastrointestinal and Hepatic Manifestations of Rheumatic Diseases

This book presents research outcomes, providing a big picture of rheumatic diseases as systemic conditions, and exploring the correlation between liver dysfunction and gastrointestinal lesions.

Springer
Graduate/Advanced undergraduate textbook
J. Grams, K. A. Perry, A. Tavakkoli (Eds.)
The SAGES Manual of Foregut Surgery
The field of benign foregut surgery continues to evolve with new diagnostic methods and treatment modalities. [...] 2019. XIX, 893 p. 250 illus., 207 illus. in color. Softcover $119.99 ISBN 978-3-319-96121-7

D. Gonzalez-Rivas, C. S. H. Ng, G. Rocco, T. A. D’Amico (Eds.)
Atlas of Uniportal Video Assisted Thoracic Surgery
This introduces the history, development and current status of uniportal VATS by pioneers and authorities of this technique. The highly illustrated content in the chapters enhances readers to rapidly understand the techniques of uniportal VAT. The use of video clips adds value to the learning experience and applicability of the techniques. [...] 2019. VII, 289 p. 260 illus., 242 illus. in color. Hardcover $249.99 ISBN 978-3-319-98496-4

N. de’Angelis, S. Di Saverio, F. Brunetti (Eds.)
Emergency Surgical Management of Colorectal Cancer
This volume provides an overview of the current evidence-based medical and surgical practice in emergency conditions in colorectal cancer patients. It offers a multidisciplinary perspective, taking into account the specific characteristics of colorectal cancer [...] 2019. XI, 346 p. 58 illus., 40 illus. in color. (Hot Topics in Acute Care Surgery and Trauma) Hardcover $159.99 ISBN 978-3-030-06224-8

C. J. Fox, III, E. M. Cornett, G. E. Ghali (Eds.)
Catastrophic Perioperative Complications and Management
A Comprehensive Textbook
For years the administrative of anesthesia was extremely dangerous and risky. Because of this the surgeon and anesthesiologist had to balance the risks and benefits for each patient before proceeding with surgery. In the last two decades the care of the surgical patient has changed dramatically. [...] 2019. XII, 418 p. 54 illus., 40 illus. in color. Hardcover $109.99 ISBN 978-3-319-96124-8

S. Docimo Jr., E. M. Pauli (Eds.)
Clinical Algorithms in General Surgery
A Practical Guide
As the field of general surgery continues to expand, the diagnostic and therapeutic pathways are becoming more complex. The diagnostic modalities available to the clinician can be both very helpful but also overwhelming considering the findings can often determine the scope of treatment for a patient. [...] 2019. XXXII, 873 p. 241 illus., 12 illus. in color. Hardcover $249.99 ISBN 978-3-319-98496-4

H. Fansa, C. Heitmann
Breast Reconstruction with Autologous Tissue
This book describes the various techniques available for autologous breast reconstruction, be it breast conserving therapy (BCT) or reconstruction following total mastectomy with local and distant flaps. Divided into two parts, the first presents the anatomy of the breast and the general requirements with regard to this kind of surgery. [...] 2019. XI, 192 p. 186 illus., 172 illus. in color. With online files/update. Hardcover $149.99 ISBN 978-3-319-95467-7

D. K. Lee (Ed.)
Practices of Anorectal Surgery

M. Kwaan, A. Zbar (Eds.)
Comprehensive Rectal Cancer Care
This book is a comprehensive guide to rectal cancer care that will provide general and colorectal surgeons details regarding the latest developments in the field. The book aims to cover the dynamic shifts in rectal cancer care that have taken place over recent years. [...] 2019. XIX, 639 p. 124 illus., 97 illus. in color. Hardcover $179.99 ISBN 978-3-319-98901-3

M. Kiselevskiy, A. G. Abdulaev, M. M. Davydov (Eds.)
Malignant Mesothelioma and Pseudomyxoma
The book discusses a vital problem of diagnostics and treatment of peritoneal malignancies, pseudomyxoma and malignant mesothelioma, which is still insufficiently developed. Compared to similar, earlier editions, this volume importantly presents cutting-edge approaches and up-to-date diagnostic methods. [...] 2019. X, 121 p. 40 illus., 38 illus. in color. Hardcover $169.99 ISBN 978-3-319-99509-0

A. Ibrahim, T. Al-Malki
Congenital Esophageal Stenosis
This book is about the early diagnosis and management of cases of CES in children. It starts by introducing the basic physiology of the esophagus and then goes on to discuss the different types of CES: tracheobronchial remnant, fibromuscular disease and membranous disease. [...] 2019. XI, 147 p. 30 illus., 14 illus. in color. Hardcover $99.99 ISBN 978-3-030-10781-9

H. Ishida, K. Koda (Eds.)
Recent Advances in the Treatment of Colorectal Cancer
This book examines the latest indications and techniques for various endoscopic and surgical colorectal cancer treatments, discussing not only the standard lymph node dissection technique, but also on laparoscopic and robotic surgery. [...] 2019. VIII, 144 p. 27 illus., 15 illus. in color. Hardcover $159.99 ISBN 978-981-13-3049-0

G. Kennedy, A. Gosain, M. Kibbe, S. A. LeMaire (Eds.)
Success in Academic Surgery: Basic Science
This updated volume provides the foundation for starting a basic science research career as an academic surgeon. Taking a practical approach, the book covers the suggested timeline for the initial academic appointment, including how to setup and fund the laboratory and identifying appropriate scientific mentors and lab personnel. [...] 2nd ed. 2019. VIII, 252 p. 34 illus., 25 illus. in color. (Success in Academic Surgery) Softcover $74.99 ISBN 978-3-030-14643-6
