This handbook on social movements, revolution, and social transformation analyzes people’s struggles to bring about social change in the age of globalization. It examines the origins, nature, dynamics, and challenges of such movements as they aim to change dominant social, economic, and political institutions and structures across the globe. 

This book provides a broad overview of the ways in which ‘adventurous practices’ influence, and are influenced by, the world around them. The concept of adventure is one that is too often tackled within subject silos of philosophy, education, tourism, or leisure. While much of the analysis is strong, there is little cross-pollination between disciplines.

Enabling Urban Alternatives
Crises, Contestation, and Cooperation
This book asks how thinking, governing, performing, and producing the urban differently can assist in enabling the creation of alternative urban futures. It is a timely response to the ongoing crises and pressing challenges that inhabitants of cities, towns, and villages worldwide are faced with in the midst of what has been widely dubbed as ‘an urban age’. Over the last century and a half, manners and formalities in the West have become less status-ridden, stiff and rigid. Debates around Norbert Elias' theory of civilising processes gave rise to questions of a change in direction of these patterns. The concept of informalisation, which describes these transformations, was first used to analyse the tumultuous changes of the 1960s and 1970s.
