Special Issue in Memory of John Horton Conway

The *Mathematical Intelligencer* will publish a special issue in honor and memory of John Horton Conway (1937–2020). Although articles are currently being solicited for this special issue, unsolicited contributions are also welcome.

The issue, which will appear in Volume 43(2), June 2021, will cover the many facets of John’s mathematical work and persona. Submissions should be five to ten pages in length (though this limit is flexible), and can be biographical in nature or focus on an area of research that John was identified with or felt some particular affinity with. The deadline (which is not flexible) is December 31, 2020.

All submissions for this memorial issue will undergo the usual refereeing and revision processes and will be accepted for publication only after successful vetting. We also will pay particular attention to subject matter in order to avoid potential duplication in this special issue.

**Important Dates**
- Article submission deadline: December 31, 2020
- Online Publication Date: Upon Acceptance of Each Paper Following Copyediting, Composition, and Proofreading

**Submission Procedure**
- Papers should be submitted at the *Mathematical Intelligencer* website: [https://www.editorialmanager.com/tmin/default.aspx](https://www.editorialmanager.com/tmin/default.aspx)
- Select Article Type from the Dropdown Menu
- Upload your files: When the system asks, “Does this manuscript belong to a special issue?” reply: Yes, then choose the option from the dropdown menu “John Conway Memorial Issue.”
- Complete the submission process as required.
